BAGGAGE IS CHECKED FROM HOME TO ANY DESTINATION

The first notice of the Union Pacific 1916 colonist rates from eastern and middle western points to the Pacific coast, was received in Ogden today by City Ticket Agent Paul Beemer. The rates are procurable from March 25 to April 14, inclusive.
Another interesting announcement made today by Mr. Beemer was that the Union Pacific was planning to inaugurate, at an early date, a new plan of taking care of baggage for travelers. Baggage will be checked from the residence of a traveler to the residence or hotel at his point of destination. In this way, the patron will be saved the inconvenience of looking up his baggage at the railway station and will be assured its care at a reasonable transfer charge.

PLANS FOR DRAINAGE COMPLETED BY ENGINEER

Drainage Engineer W. N. Hall has completed his survey of the proposed drainage district of Hooper and Plain City in Weber county, and has forwarded his findings to Washington, for consideration by the department of agriculture. He has been assisted by County Surveyor Ralph Corlew, the entire work having been done without cost to the property owners in the two districts.

It is expected that the survey of Mr. Hall will be approved and that within a short time it will be submitted to the farm owners of Plain City and Hooper for consideration. In fact, the survey is nothing more nor less than plans and specifications for the improvements. The exact course of the drainage pipes is given, the cost of the enterprise estimated and the benefits to be derived are explained.
If the property owners in the district embrace approval of the plans, they will petition the county board of commissioners to form the drainage districts under the new state law. The commissioners will then appoint a board of three directors who will take charge, and proceed to bond the districts or collect a direct tax. The plan of raising funds will rest with the farmers.

LOCAL FACTORY WILL HAVE BIG ACREAGE THIS YEAR

Although quite a large acreage has been cut off from the Ogden sugar factory territory by virtue of the building of a plant at Layton and one in Boxelder county, more than two-thirds of the acreage of last year already has been contracted by the Ogden factory. The acreage last year was 9600 and more than 6000 acres have been signed up this year.

The field department of the Amalgamated sugar company reports that it is more than likely that as large an acreage as last year will be secured in the Ogden territory, which is now confined, almost entirely to Weber county. The territory of the new factories was taken from north Davis and south Boxelder counties.

In contracts so far entered into, the farmers each have increased their acreage from 2 to 10 acres. The acreage will be greatly increased in the Ogden valley and in other parts of the county.

WORLD'S MARKETS
Chicago Grain
Chicago, Feb. 14.—Wheat developed weakness today in the absence of any evidence of fresh export business. Besides, large receipts which were piled up during the double holiday had a tendency to discourage holders. Crop damage reports from the southwest acted as only an offset in part. After opening 35-1-2c lower to 13-1-2c advance, with May at \$1.27 5-8 to 128 1-4 and July at \$1.21 1-4 to 121 1-2, the market underwent a material sag all around and then scored a moderate rally.
Heavy arrivals pulled down the value of corn. Sellings were scarce. Open prices, which ranged from a shade to 1-4@3-8c down, were follow-
